Introduction

AppJetty has come up with an exciting theme specially made for customizable backend look of the admin panel. This backend theme is enriched with custom features and elements. With Falcon Material Backend Theme one get full technical support for Odoo Views with Graphics. Admin has color, font and layout custom options for backend. With numerous useful themes, features, one can personalize the theme and make it look better. One can explore the flexibility offered by Falcon Material Backend Theme. Falcon Material Backend Theme is fully responsive for easy access on multiple devices.

Benefits of Falcon Material Backend Theme

- Falcon Material Backend Theme provides elegant and compact view of Odoo Backend.
- With Falcon Material Backend Theme, admin can customize Color, font & layout of backend.

Pre-requisites

Following points must be followed before starting the plug in installation:

- You should login as an Admin in Odoo.
- Check if your Odoo Instance is compatible for Falcon Material Backend Theme.
- An e-commerce module should be present in your instance to use this theme.

Installation

Installation Steps

Step 1: Download and extract the zip file.

Step 2: Check your Odoo add-ons path.

- It should be same as defined in Odoo Config file.
- Config files are mostly saved in /etc folder. For e.g. /etc/odoo.conf
- Open Config file:
 - Give the command: `sudo/etc/odoo.conf`
 - Config file content: `addons_path = /opt/odoo/addons`

Step 3: Open Terminal and go to download location

- For e.g. if the download location path is: /home/odoo/Downloads then the command to be written in the terminal would be: `cd/home/odoo/Downloads`

Step 4: Copy download modules to addons path

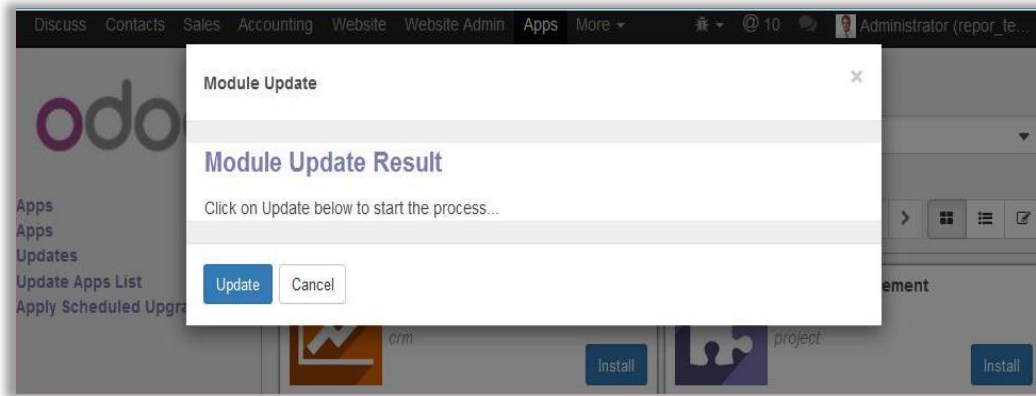

- Give the below mentioned commands to perform copy operation:
 - `$cd /home/odoo/Downloads/falcon_backend_theme`
 - `$cd v8`
 - `$sudo cp falcon_backend_theme /opt/odoo/addons`

Step 5: Restart Odoo server

Step 6: Login with the admin credentials in your odoo instance.

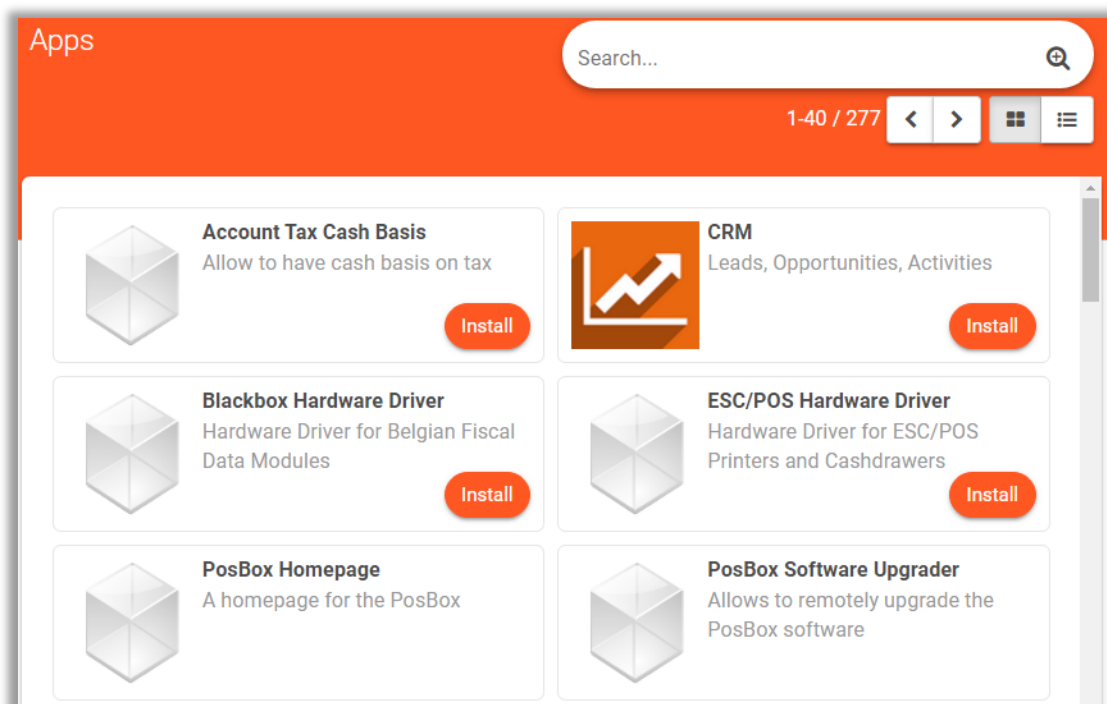

Step 7: Go to Settings/Update Module List.

- Click on 'Update' button.

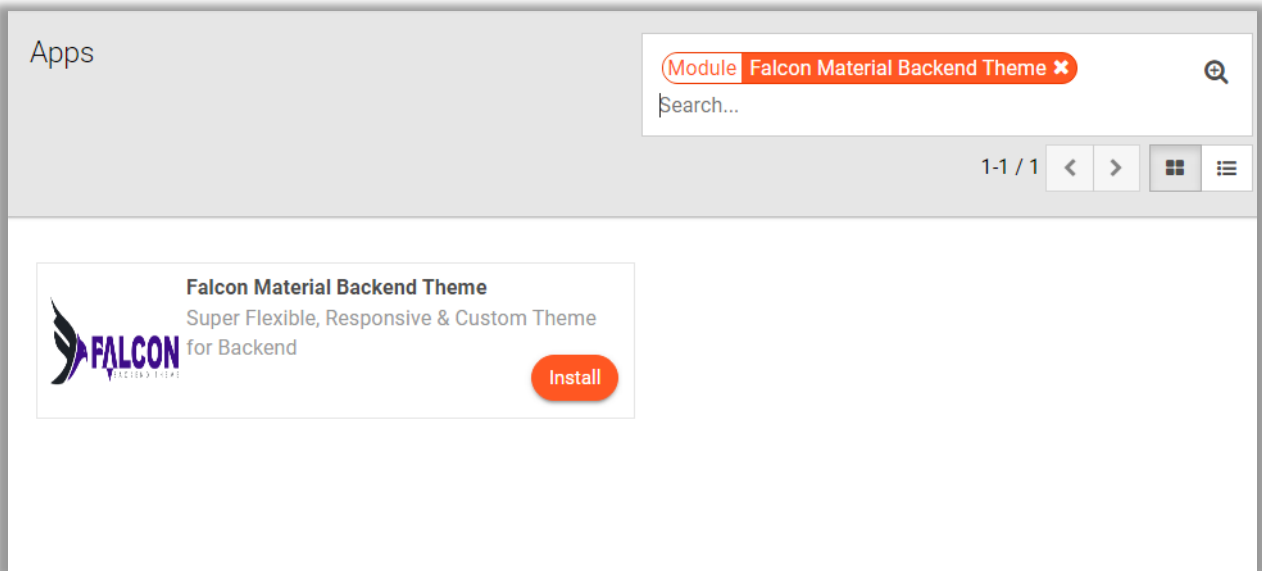

Step 8: Go to Settings/Local Modules

- Remove search filter

USER MANUAL – Falcon Material Backend Theme

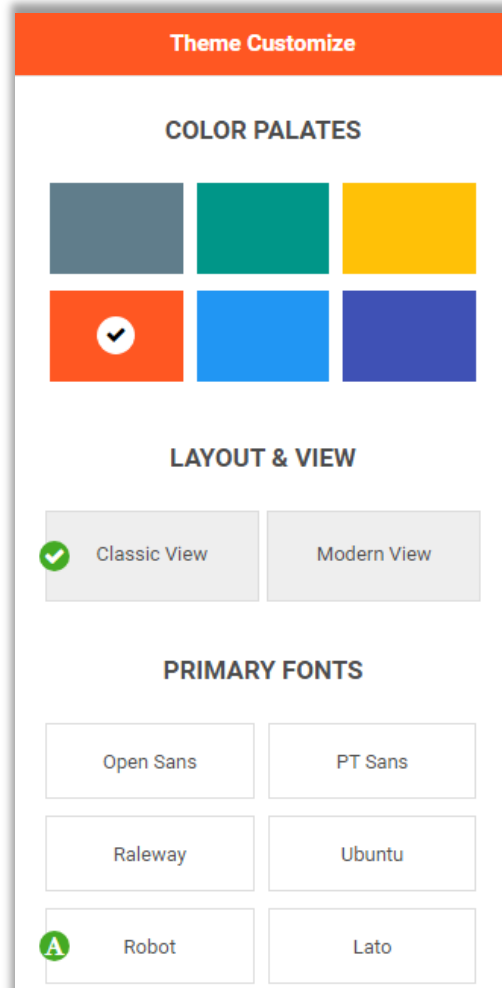

- Enter module name in the search box provided in the top right corner of the page. For e.g. here write “Falcon Material Backend Theme”.
- Click on ‘Install’ button.

Theme Configuration

Calendar View

The screenshot displays the 'Calendar View' of the Falcon Material Backend Theme. The interface includes a sidebar menu on the left with icons for home, calendar, mail, and settings. The main content area is titled 'Sales Orders (April 2017)' and features a search bar. Below the title, there are navigation buttons for 'Today', 'Day', 'Week', and 'Month'. The calendar itself is a weekly grid showing dates from 13 to 22. A dropdown menu is open for the date 13, listing several sales orders with their times and descriptions. To the right of the main calendar, there is a smaller calendar for the month of April 2017, with a 'Sales Order' checkbox and a list of dates.
